

Uganda Robusta Washed "The Pearl"

The Pearl Project

We would like to present you our new top quality socially-oriented coffee: **Uganda Robusta Washed "The Pearl"**.

In June 2006, **UGACOF** started a washed Robusta project with **mobile washing units** that move around the country during the coffee seasons. We are in partnership with 5000 farmers in three different regions of Uganda.

From the tree to the **small mobile washing stations** Robusta is handpicked manually by **farmers selecting only mature and non damaged cherries**.

During **sun-drying**, wet parchment is sorted continuously.

So far, farmers are very enthusiastic with the project. We hope that with this season's positive results, we can extend the project to more farmers and more areas in Uganda by increasing the number of mobile washing units.

Our offer

Cupping:

- Balanced medium Body
- Round, Smooth
- Very clean Robusta aroma

Availability:

We currently have 877 bags ready to be shipped before the end of the year.

Samples:

Kindly let us know if you would like us to send you a sample of "The Pearl" and if you would like to receive more explanations on how our projects work.
